

Short visit to apartments

There are four lodging options that have been completely renewed at 2012 beginning:

- [Apartment with seaview](#)
- [Studio with seaview](#)
- [Apartment without seaview \(aka. standard\)](#)
- [Studio without seaview \(aka. standard\)](#)

Just click on one of the above room kind to see the general distribution of that room kind and some actual photos of them.

We can lodge up to 4 people in one apartment sleeping two in the bedroom and two in the living room. We can lodge up to 2 people in one studio.

In the early renewal we tried to attend the recommendations of our habitual guests looking for every detail that conducted us to a clear and bright interior design offering the basic commodities that must offer a holiday home.

The apartments and studios with seaview have the benefit of a marvellous view over the Palma Bay from their terrace that is equipped with modern exterior furniture offering our guest to enjoy the Mediterranean from their own room.
